PERSONAL INFORMATIONS

Education and Professional Qualifications

"Studio Celestini & associates s.r.l." is constituted by 3 partners:

Dott.ing.Celestini Giancarlo

Academic degree in "Civil and Structural Engineering" at the University of Bologna (1st December 1975) (degree score 90/100).

Final exam to practice the profession, taken with a positive result at the University of Bologna and following registered Engineer n A457 (8th September 1976)

Eng. Celestini Giancarlo is Technical Director from 1995 of TEC.INN.S.r.l. in Perugia and Milano.

With over 1000 applications, TECINN S.r.l. is a leader company in Italy, in the construction industry, specialized in the research, development and application of advanced materials and innovative technologies for the retrofitting, restoration and conservation of historical buildings and civil engineering structures and infrastructures.

He is licensed to prepare security plans in the civil engineering industry sector (decree law 494/96) and registered to be in charge of construction and design management.

He is certificated by 60 hr. training course in accordance to the decree law 494/96.

Eng.Celestini has been co-owner from 1978 till 1998 of the Comprogetti s.n.c. company. Comprogetti is an engineering firm specialized in the design , project management in the sectors of urbanization, architecture, environment and industrial plants and structural engineering both for new structures as well as for the retrofit-consolidation of existing ones .

Dott. Ing. Bettacchioli Andrea

Academic degree in "Civil and Structural Engineering" at the University of Perugia (1st April 2003) (degree score 96/110).

Final exam to practise the profession, taken with a positive result in the University of Perugia and following registered Engineer n A2327 (3rd February 2004).

Dott. Ing. Taburchi Paolo

Academic degree in "Civil and Structural Engineering" at the University of Perugia (29th October 2003) (degree score 94/110).

Final exam to practise the profession, taken with a positive result in the University of Perugia and following registration at the Engineer's Register n°A2336 (17 February 2004).

He is licensed to prepare security plans in the civil engineering industry sector (decree law 494/96) and registered to be in charge of construction and design management.

He is certificated by 120 hr. training course in accordance to the decree law 494/96.

Dott. Ing. Giancarlo Celestini

Collaboration for the publication of the book titled: "Progetto e partecipazione democratica - metodologie ed esperienze di progetto partecipato a Bologna" by Leonardo Lugli - Editore Patron.

Consulting Engineer in building industrialization since 1985 till 2000 for PRECAST SOCIETY S.I.MO. Società Industriale Montone s.r.l. - INDUSTRIAL ZONES. Maria di Sette - Montone (PG)

Consulting Engineer in building industrialization since 2000 for PRECAST SOCIETY BIEMME PRECAST s.r.l. – S. Lucia – Città di Castello (PG)

Member of Directive Commission A.I.C.O. - Associazione Italiana Compositi Fibrosi (Italian Association of Composite Fiber) for construction company - Engineer University of Bologna.

Registered Engineer in Order of Engineer in the Province of Perugia since 1995-96.

Technical Award: "Assisi per il restauro II edition" (ASS.I.R.C.CO.) for "Design restoring and strengthenino of Città di Castello Dome Cathedral"

Speaker at A.T.E. (Associazione Tecnologi per l'Edilizia) – DIS University of Milano in collaboration with A.I.C.O: "Composite structure – Technology, application and experimental tests".

Speaker of "Salone dell'arte del Restauro e della Conservazione dei Beni Culturali e Ambientali (RESTAURO dal 2001 al 2007) sul tema " Innovation Technology and new composite materials for the restoring and strengthening of Storical and Artistical monuments "

Year : 1990

Client : S.I.MO. PRECAST S.R.L. SOCIETÀ INDUSTRIALE MONTONE ON BEHALF OF CITY HALL PROVINCE OF FIRENZE

Construction Work: PRECAST STRUCTURES OF THE BASEBALL STADIUM " COMPLESSO CERRETI" IN FIRENZE .

Stands and roof structures

Description of the Engineering Services:

Structural Design and construction management of the reinforcement precast stands and steel roof structures to hold 3500 people.

The structure hosted the world cup

Year : 1993

Client : CITY HALL OF SAN GIUSTINO (PG)

Construction Work: POLIFUNCTIONAL STRUCTURES FOR SPORT EVENTS AND OTHER ACTIVITIES

Inside view

Description of the Engineering Services:

Structural Design and construction management. The structure has been designed to host international events and bet 1200 people. The roof structure has been designed in glulam with a 42 mt. spam. A big effort has been devoted to light and thermotechnical plants

Year 2003

Client : BIEMME PRECAST S.R.L. ON BEHALF OF ZOOMARINE S.P.A. NEAR TORVAIANICA (ROMA)

Construction Work: PRECAST STRUCTURES FOR A MARINE ZOO (ZOOMARINE)

stands and roof coverage

Description of the Engineering Services:

Structural Design and construction management.

With its area of 34 hectares Zoomarine is a marine entertainment park suitable for adults and children, a place where you can meet animals such as sea mammals and tropical birds and learn to love and respect nature. Respect for animals and protection of the environment are the foundations of all Zoomarine activity to the extent that it is known all over the world for its high standards and the presence in the park of qualified vets

and biologists.

The “medical behaviour” technique is very important in Zoomarine, used to improve animal conditions and scientific research. Using this technique the animals are trained to become accustomed to medical care so that it is easier for the vets to take good care of them. Zoomarine has signed numerous conventions with the most important Italian and international research organizations.

Year 2006

Client : CITY HALL OF BAGNACAVALLO (RA)

Construction Work: PRECAST STRUCTURES OF THE STANDS FOR THE SOCCER STADIUM OF BAGNACAVALLO

stands and roof coverage

Description of the Engineering Services:

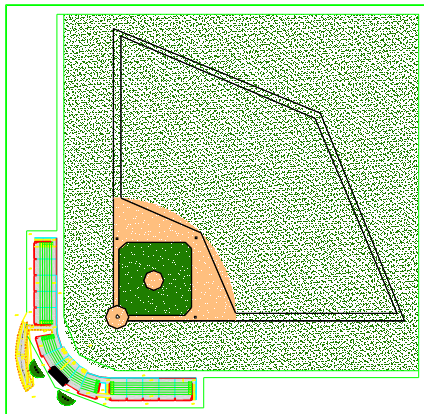

Structural Design and construction management.

Year: 1992

Client: IMPRESA S.I.C.E.S. ON BEHALF OF SIP (TELECOM ITALIA)

Construction Work: TELEPHONE LINES IN SIENA

Description of the Engineering Services: planning supervisor

Year: 1993

Client: CITY HALL OF CITTÀ DI CASTELLO (PG)

Construction Work: PROJECT OF PRIMARY ZONE URBANIZATION PEEP OF THE CHIEF TOWN COMPARTO C6

Global View of the Complex

Description of the Engineering Services: Structural Design and construction management.

Year : 1995

Client: IMPRESA SITE S.P.A. ON BEHALF OF OMNITEL PRONTO ITALIA

Construction Work: RADIO BASE FOR MOBILE PHONES IN MAGLIANO SABINA

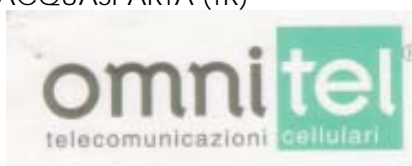

Description of the Engineering Services: Structural Design and construction management.

Year : 1995

Client: JOINT ENGINEERING S.R.L. ON BEHALF OF OMNITEL PRONTO ITALIA

Construction Work: RADIO BASE FOR MOBILE PHONE IN: ANCONA(AN), SENIGALLIA (AN), GRADARA(PS), CASCINARE(MC), ASSISI(PG), FOLIGNO(PG), GUALDO TADINO(PG), SPOLETO(PG), MONTELUCCO DI SPOLETO(PG), MARSCIANO(PG), TERNI(N.2 SITI), ACQUASPARTA (TR)

Description of the Engineering Services: Structural Design and construction management.

Year : 1995

Client : TECHNIMP ON BEHALF OF THE CITY HALL OF UMBERTIDE (PG)

Construction Work: STRUCTURES OF THE PURIFICATION PLANT OF THE SEWER COLLECTORS

Description of the Engineering Services: Structural Design of reinforced concrete (RC) and steel structures, the designed included: buildings, tanks, sewer collectors, ducts and river crossing

Year : 1995

Client : TECHNIMP ON BEHALF OF THE CITY HALL OF SANGIUSTINO AND CITERNA (PG)

Construction Work: STRUCTURES OF THE PURIFICATION PLANT OF THE SEWER COLLECTORS

Description of the Engineering Services: Structural Design of reinforced concrete (RC) and steel structures, the designed included: buildings, tanks, sewer collectors, ducts and river crossing

Year : 1995

Client : TECHNIMP ON BEHALF OF THE CITY HALL OF PERUGIA

Construction Work: STRUCTURES OF THE PURIFICATION PLANT OF THE SEWER COLLECTORS

Description of the Engineering Services: Structural Design of reinforced concrete (RC) and steel structures, the designed included: buildings, tanks, sewer collectors, ducts and river crossing

Year : 1995

Client : TECHNIMP ON BEHALF OF THE CITY HALL OF SANSEPOLCRO (AR)

Construction Work: STRUCTURES OF THE PURIFICATION PLANT OF THE SEWER COLLECTORS

Description of the Engineering Services: Structural Design of reinforced concrete (RC) and steel structures, the designed included: buildings and enlargement of existing tanks in the Pian di Genga area

Year : 1997

Client : CITY HALL OF CITTÀ' DI CASTELLO

Construction Work: REMAKING OF PAVIMENTS OF THE CITTA' DI CASTELLO HISTORICAL CENTER SQUARE

Description of the Engineering Services:

The project consisted in designing the squares in the natural "Serena" stone and replanning substituting all the plants systems. The design was supervised by the office of historical and artistic heritage.

Matteotti's Squares

Year : 2001

Client : CITY HALL OF CITTÀ' DI CASTELLO

Construction Work: URBAN PLAN FOR MOBILE PHONES NETWORK

Description of the Engineering Services: Design of the technical and urban plan for the management and realization of radio mobile stations for the national mobile network

Year : 2002

Client : CITY HALL OF CITTÀ' DI CASTELLO

Construction Work: PROJECT MANAGEMENT ACCOUNTING AND SAFETY PLANNING FOR THE PUBLIC WORKS OF URBANIZATION IN THE PIP OF CERBARA IN CITTÀ' DI CASTELLO

Description of the Engineering Services: Industrial facilities for the realization of all necessary urban facilities for that area. All technological plants for primary industrialization and infrastructure were designed

Year : 2003

Client : CITY HALL OF CITTÀ' DI CASTELLO

Construction Work: PROJECT MANAGEMENT ACCOUNTING AND SAFETY PLANNING FOR THE PUBLIC WORKS OF URBANIZATION IN THE PIP OF S.PIO X IN CITTÀ' DI CASTELLO

Description of the Engineering Services: Design consisted of planning an urban natural park in substitution of an existing, to be demolished, sport stadium

Year : 2006-2007

Client : PREFITALIA SpA INDUSTRIAL ZONE S.MARIA DI SETTE - MONTONE (PG)

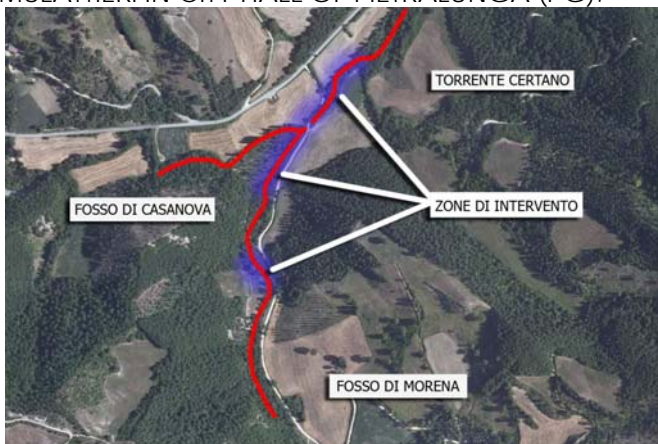

Construction Work: PROJECT MANAGEMENT OF THE URBANIZATION AREA TO ACCESS THE INDUSTRIAL SITE OF MONTONE.

Description of the Engineering Services: Structural Design and construction management.

Year : 2008

Client : COMUNITÀ MONTANA ALTO TEVERE UMBRO – PIETRALUNGA (PG)

Construction Work: REHABILITATION OF THE CERTANO RIVER, NEAR CASANOVA DEI MULATTIERI IN CITY HALL OF PIETRALUNGA (PG).

Description of the Engineering Services: Structural Design and construction management of all the work necessary to retrofit and rehabilitate the Certano river bed

Certano river planimetry

Year : 1993

Client : CITTA' DI CASTELLO (PG) BISHOP'S BUILDING

Construction Work: RECOVERY CENTER FOR HANDICAPPED PEOPLE

Description of the Engineering

Services: Architecture and structural design of the new center for handicapped people. The structure consisted in a reinforced concrete frame and glulam roof structure. The design has been harmoniously inserted in the surrounding umbrian hill and has been followed by a sociological report to support the design.

Installation of the glulam roof structure

Year : 1993

Client : IMPRESA S.I.C.E.S. ON BEHALF OF CITY HALL OF CITTA' DI CASTELLO (PG)

Construction Work: PARK STRUCTURE OF TEVERE'S ANSA

Description of the Engineering Services: Structural Design and project management of the reinforced concrete stands and supplementary works

Year : 1993

Client : PUBLIC WORKS MINISTRY – REGIONAL SUPERINTENDENCY TO PUBLIC WORK OF THE UMBRIA

Construction Work: BUILDINGS REPAIR DAMAGED BY EARTHQUAKE OF 1984 DEAN CHURCH OF SANGIUSTINO (PG)

Description of the Engineering Services: Structural Design of all retrofit works necessary to consolidate the entire complex in particular micro piles to consolidate the foundations

of the lateral chapels, have been designed and all works has been superintended by the regional office of the historical and artistic heritage

Year : 1993

Client : PARISH MADONNA DEL LATTE

Construction Work: "MADONNA DEL LATTE" CHURCH CITTA' DI CASTELLO (PG)

View of inside of the church

Description of the Engineering Services:

Structural Design and Project management of a new building adjacent the existing church previously designed by our firm to realize an urban gathering center

Year : 1994

Client : PUBLIC WORKS MINISTRY – REGIONAL SUPERINTENDENCY TO PUBLIC WORK OF THE UMBRIA

Construction Work: REPAIR BUILDINGS DAMAGED BY THE 1984 EARTHQUAKE : BADIA DI PETROIA ABBEY IN CITY HALL OF CITTA' DI CASTELLO (PG) MUNICIPALITY AND S.MARIA IN CASTELLACCIO CHURCH IN CITY HALL OF CITTA' DI CASTELLO(PG)

Vista Opere provvisorie cripta

Description of the Engineering Services: Structural Design of the consolidation project of the crypt of the church. The design called for the realization of the steel frame supporting system to allow the visit of the roman crypt and prevent any dangerous settlement caused by the earthquake.

The design has been supervised by the client and office of Historical and Artistic heritage

Year : 1995

Client : CITTA' DI CASTELLO (PG) BISHOP BUILDING

Construction Work: STRENGTHENING AND RESTORING OF THE BISHOP AND SACRO CUORE LIBRARY

Description of the Engineering Services: The design consisted in redesign the use of part of the floor level of the palace in one of the most important square of the city, with shops and market area.

Year : 1996

Client : ANAS - COMPARTIMENTO DELLA TOSCANA

Construction Work: STRENGTHENING OF A BRIDGE OVER THE BRUNA RIVER IN CASTIGLION DELLA PESCAIA (GR)

5 span bridge view

Description of the Engineering Services:

Structural Design and construction management. The structural design consisted in retrofit of the deteriorated concrete and Strengthening using the Beton Plaquet technique by installing inox steel plates AISI 312L imported from Belgium. The design allowed to classify the bridge from 2nd to 1st class

Year : 1997

Client : CITTA' DI CASTELLO(PG) BISHOP'S CURIA

Construction Work: RESTORATION OF CITTA' DI CASTELLO CATHEDRAL ROOF STRUCTURE PLATES AND INTERIOR LIGHTING DESIGN

Description of the Engineering Services: Structural Design and construction management, the project was part of the works connected to the 2000 Jubilee supervised by the Vatican Build Recovery Office

Year : 1997

Client : DIOCESIS INSTITUTE FOR CLERGY SUPPORT

Construction Work: RESTORATION OF EX-BUILDING SEMINARY IN CITTA' DI CASTELLO HISTORICAL CENTER

Description of the Engineering Services: Structural Design and construction management, the design consisted in converting part of the structure in a library with archive consulting by internet for a worldwide knowledge and change in destination of use of another person th host caritas conscientations objector.

Year : 1997

Client : CITTA' DI CASTELLO (PG) DIOCESIS – COMITEE FOR THE RESTORATION OF THE CATHEDRAL STAIRCASES PROMOTED BY THE INDUSTRIALISTS ASSOCIATIONS AND FROM "CASSA DI RISPARMIO DI CITTA' DI CASTELLO" BANK FOUNDATION.

Construction Work: RESTORATION OF CITTA' DI CASTELLO CATHEDRALS STAIRCASE AND PAVIMENT.

Publication

Description of the Engineering Services: Structural Design and construction management, design of the retrofit of the 1700's staircase. The project was part of the works connected to the 2000 Jubilee. The design has been supervised by the client and office oh Historical and Artistical Umbria heritage.
